Projects

ChatGPT   Solo
Tech Stack: React, HTML, Tailwind CSS, JavaScript   *Live Demo*

– Built a ChatGPT clone that enables real-time interaction between users and an AI assistant, offering seamless conversations and prompt-based dynamic responses.

– Implemented an intuitive and responsive UI with Tailwind CSS, ensuring consistency across devices.

– Integrated OpenAI API to generate intelligent responses by handling user prompts and API replies efficiently.

Jio Hotstar   Solo
Tech Stack: React, HTML, CSS, Firebase, JavaScript   *Live Demo*

– Developed an OTT streaming platform clone inspired by JioCinema/Hotstar, with dynamic UI components and category-based content display.

– Used Firebase Realtime Database for storing and managing user data with real-time syncing of preferences.

– Continuously enhancing features like video playback, watchlist, and search to mimic real-world application behavior.

Shop-Cart   Group
Tech Stack: JavaScript, HTML5, CSS3, Git   *Live Demo*

– Collaborated in a team to develop a Flipkart-inspired e-commerce platform with product browsing, filtering, and cart management.

– Implemented dynamic product rendering, API-based fetching, and interactive UI with JavaScript.

– Actively used Git for version control and participated in peer code reviews to ensure code quality.

Work Experience

Eros Hotel, Nehru Place, New Delhi   June 2022 – Oct 2022
Income Auditor Assistant

– Adhered to training schedules and successfully met defined performance certifications.

– Maintained professional and effective communication with internal departments for accurate audit processing.

– Resolved problem invoices and discrepancies with urgency and accuracy.

– Collaborated with cross-functional teams to understand labeling requirements and deliver timely updates.

– Ensured individual productivity targets were consistently met or exceeded.

– Utilized accounting and office software such as MS Excel, Outlook, and Word for data tracking and reporting.
